

1. Problem Statement

1. `x <- c('data.science.in.R','machine.learning.in.R')`

Perform the below string operation:

- Replace the period character "." within each string with another character i.e. "-" minus sign.

NOT Discussed in the Class

2. `x <- c('data.science.in.R','machine.learning.in.R')`

Perform the below String operation:

- Append again with "-" minus sign character at the start of each string and finally concatenate all the string within the vector to form a final single string and assigning it to some object
